# WCAG 2.1 FOR WEB WRITERS

## Navigation

- Title identifies content
- Link text alone or in context identifies linked content

## Language

Foreign language words tagged

## Structure

- Headings, lists, tables, quotations, forms, text
- Headings, labels identify content

## Images and colour

- Short, long or null text alternatives
- Colour not relied on for meaning
- No content flashes 3+/second
- Adequate contrast for text, images of text, adjacent colours in images
- Styled text, not images of text
- Icons and text alternatives used consistently

## Instructions and errors

- Instructions don't rely on visuals or sound
- Errors identified using text
- Form fields have labels or instructions
- Error messages include suggested fixes

## Pre-recorded audio and video

- Transcripts for audio-only
- Transcript or audio for video-only
- Captions for dialogue/sound
- Audio description for visual info not in soundtrack (or transcript - level A only)

## Documents

- Correct reading and tab order
- Keyboard accessible
- Headings tagged and navigable
- Language of document set
- Submit button for forms
- Form fields labelled and name, role, state values set
- Page numbers provided, and match numbers in page nav toolbar
